New Jersey - 07093

Dear Mr. Weisberg -

You may not remember me, since the last time we corresponded - by mail and by phone - was several years ago. I'm the fellow with the tape-recorded library (1,700 hours approx.) on the JFK, RFK, MLK assassinations. Also, I have compiled virtually everything - Chronologically listed - on these from all sources and publications throughout the United States and, due to my just recently concluded 2 year stay in Europe, from there as well. Remember me now? I'm writing you now - hoping you are still at this address - to let you know that I have been very recently in touch - and they with me - with the "Committee To Investigate Assassinations" and have sent them letters, telling them that they can use my tape and printed materials I've accumulated for more than 10 years now, and that they may use and copy any of these materials and that they are allowed to use these for one full year, at the end of which I desire to regain/retain these for use in an intended book I am contemplating writing on this subject. I am sending them a tape recording tomorrow of some of my appearances on New York radio stations. I have presented Paris Hammond with copies of the CBS and NBC tapings of Nov 22, 23, 24 1963 JFK assassination (3 years ago). I mentioned in my communication with the Committee To Investigate Assassinations, the

PLEASE TURN →

I request they make available to you personally any of my material (tape or printed) that you may desire, Harold, at any time you may desire it. You may call them to verify this but I assure you it is true. I have always respected your massive, all-inclusive research and work in this field, and I regard you, along with some others, as one of America's true patriots! And I mean that. You are one of the unsung heroes of this country, and therefore, it is with great pride that I offer this 10 year project of compiled material to you, as well as to the Committee. Included are some of your debates with Liebler, and others, at various times. Much more than I could possibly list here, of course. I am offering these to the Committee and yourself free of charge in any way. This is more important than any personal consideration, in my opinion. So with the knowledge that my massive materials will be of use to you, I'll close for now, asking you to send me a letter as soon as possible, letting me know you have received this letter from me, since I don't really know whether you are at the same location I am sending this letter to, so please let me know, OK? Thanks, & keep up the good work.

Respectfully,

Ted Gandoff.
